Technical Data

Hepa Filter

- ▶ With the Hepa filter feature, our mosques are more hygienic. With the telescopic vacuum, the places where the machine does not enter can be cleaned with an absorbent, foldable, telescopic pipe system.

Brush Adjusting Knob

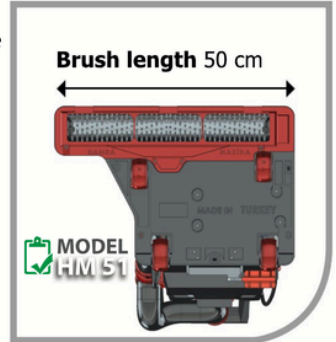

- ▶ With the Brush Adjusting Knob, the height of the machine from the ground can be adjusted according to the carpet bristle length.

Cable Winding System

- ▶ 20 meters cable is more easily wrapped.

Wide Sweep Area

- ▶ Half of a pure can be swallowed at a time.

ONLY 23 kg.

ONLY 17 kg.

■ 3 meters extending hose

MAKES MOSQUES CLEAN CARPETS STAY LIVE AND SOFT

Mosque Cleaning

For the mosques, specially designed machinery should be used. The carpet feather length of the mosque is around 18 mm. For this reason, the bristles are soft and 18 mm in length so that the machine can be used to remove dust from the floor

The Benefits of Our Machines to Carpets

- ▶ Your feathers will remain soft.
- ▶ prevents the formation of foot and knee traces
- ▶ Prevents hair from sinking
- ▶ Removes stiffness in the entrance area of the mosque
- ▶ It prevents felting by twisting the feathers.
- ▶ Prevents carpet hairs from felting
- ▶ Extends the life of your carpets.
- ▶ **1000 m2 cleaning per hour**

GUNTECH

INDUSTRIAL CLEANING MACHINE

Our products are used in over 30 thousand mosques in Turkey. We exports to many contries abroad

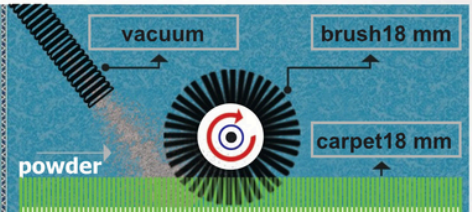

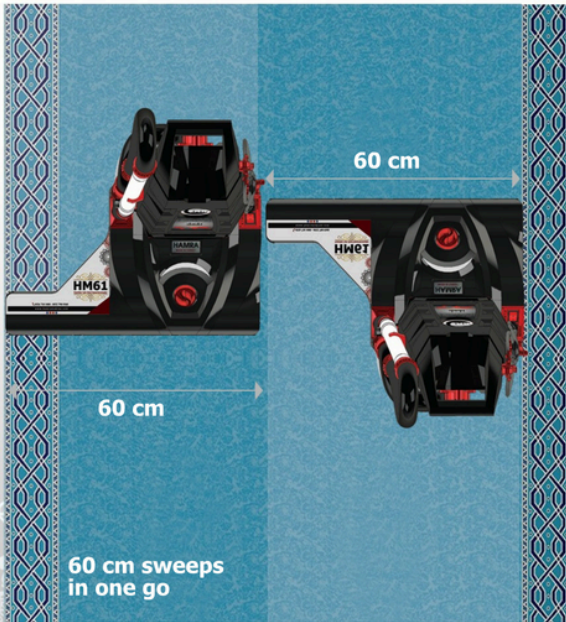

■ Graded height adjustment by user

120 cm sweeps in two go

► Result In-depth cleaning

► Cleans the surface of the carpet, not the surface, and traps it in the hopper.

► The bristles of the machine are soft according to the carpet of the mosque and do not wear the carpet and prolong its life

► Every brush cleaner is not a mosque vacuum cleaner.

□ Brush Adjusting Knob □ Cleaning Apparatus □ Cable Winding System □ Hepa Filter
